## ACKNOWLEDGMENT

*We would like to acknowledge all those who have given us moral support and helped in making the project a success.*

*We wish to express our gratitude to eProject Team at Head Office who guided and helped us.*

*Thanks to our teacher **Mr. Hany Al-ghaithi** who guided us during the Project.*

*Also, we would like to express our gratitude to all the staff members of our center for not only providing us an opportunity to work with them on this project, but also for their support and encouragement throughout the process.*

### PROBLEM STATEMENT

Pleasant Tours is into selling various tour products. They have predefined tours with itineraries. The company advertises by distributing the pamphlets, advertising on television and so on. Due to rapid development in internet field, the company decides to launch a website where people will get all the information about the various tour products available with them easily.

The website is to be developed for the Windows Platform using HTML5, JavaScript and Geolocation. The site should work well in all leading browsers including Chrome, IE, Firefox etc.

### REQUIREMENTS SPECIFICATION

The Web Site is to Be Created Based on the following requirements:

- 1) The Home Page should be created making use of Frames with a suitable logo
- 2) The site should display a menu which will contain the options for brief introduction about the various products available, location of the shop and any other information if required.
- 3) The information should be categorized according to different type of products like if a User wants to see only 'Beach Tours' then he clicks on a Link/button/menu etc. and he will see different type of Beach Tours. Similarly, for 'Hill Stations', 'Forts/Palaces' and other products
- 4) When a user selects any product type, a list of products for that product type will be displayed.
- 5) Itinerary of individual tour products should be displayed on the Web Page along with the title but detailed itinerary should be stored in Individual Word documents which can be downloaded or viewed by the User who wishes to see the same.
- 6) Price List for all tours should be available for download.
- 7) There should be a "Contact Us" page which will have the Address of the Company which is as follows and the mail address which when clicked will invoke the local mail client from where they can send an email. Address of the Company should be displayed using Geolocation API (e.g. Google Maps).

## REQUIREMENTS SPECIFICATION

### Hardware:

- A minimum computer system that will help you access all the tools in the courses is a Pentium 166 or better.
- 64 Megabytes of RAM or better.

### Software:

- Notepad/HTML editor
- Dreamweaver
- IE 5.0/ Netscape 6.0

## PROJECT DESIGN

### Architecture and Design of the System

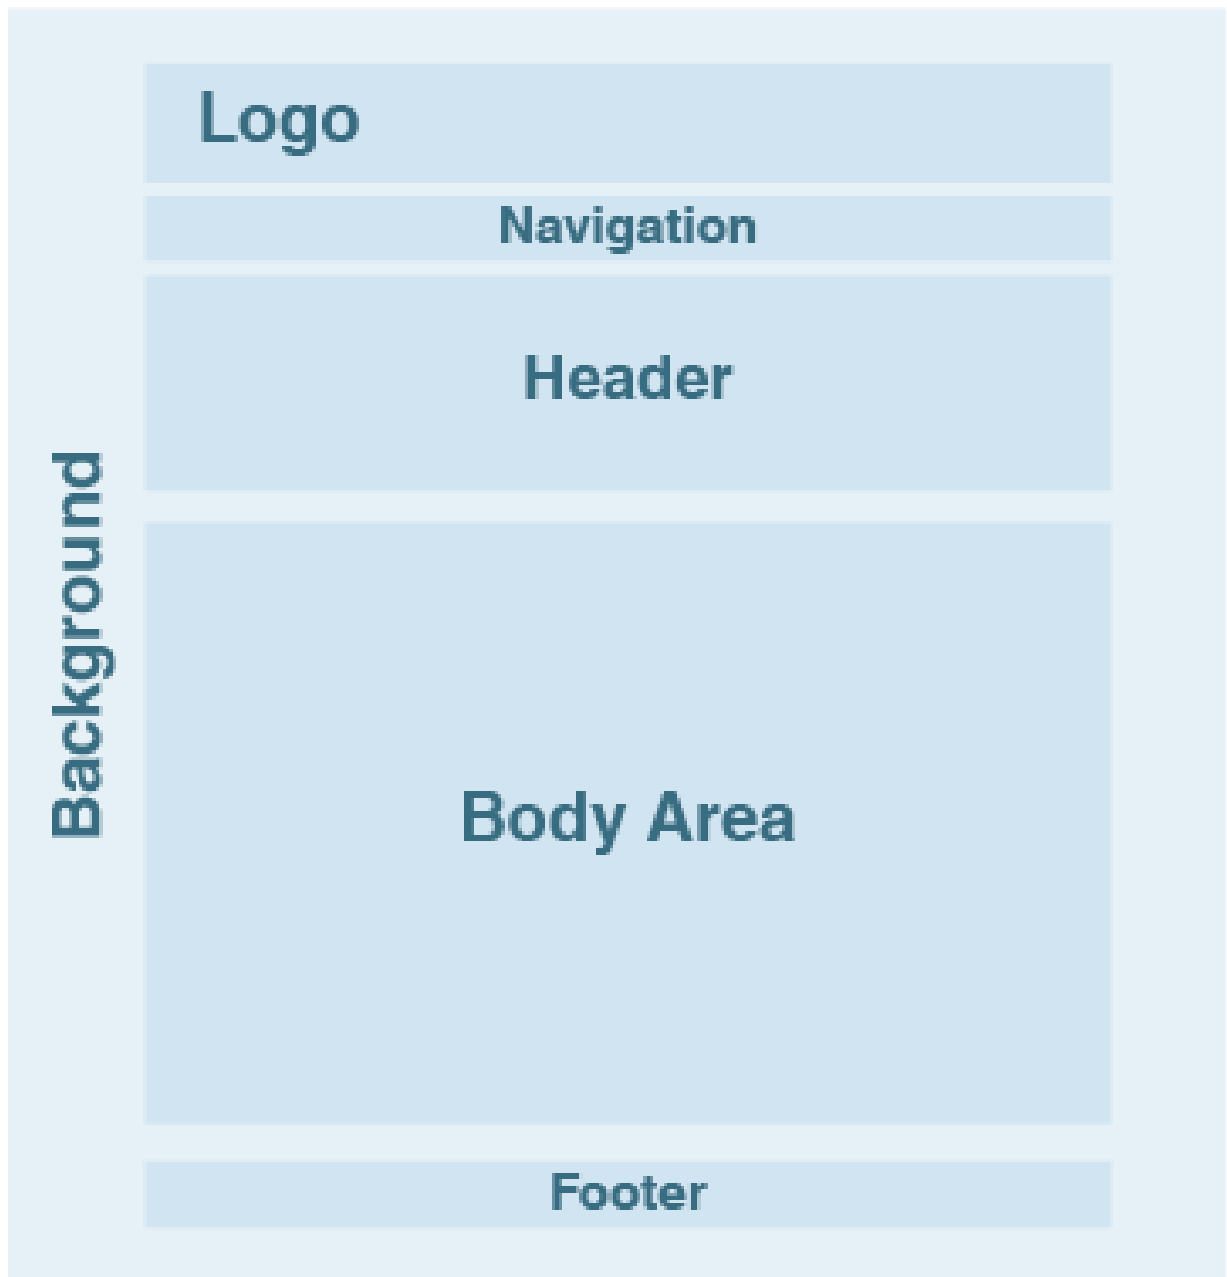

*The application will have a client-server architecture.*

**Client-Server Architecture of the Project**

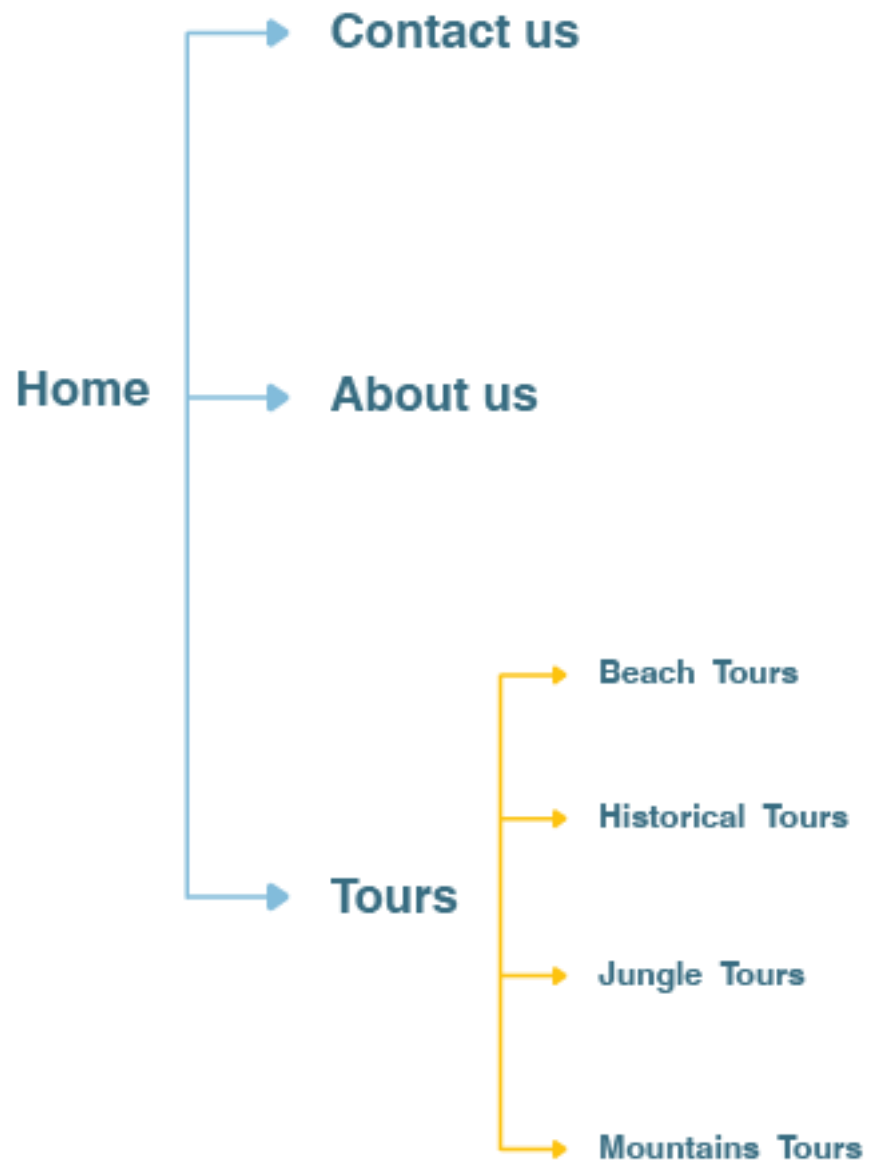

## Project Layout

### Site Map

The sample site map illustrates the navigation flow of the objects on the Web portal.

### GUI MAP

#### Home:

*Contains the main slider of the site displaying images of various tours of different types with the clients review about the products.*

#### About us:

*This page contains the introduction to the company and clients review about the products.*

#### Contact us:

*This page contains the comment box where the user can provide her/his feedback and the company location.*

#### Type pages:

*These pages contain the tours of each type.*

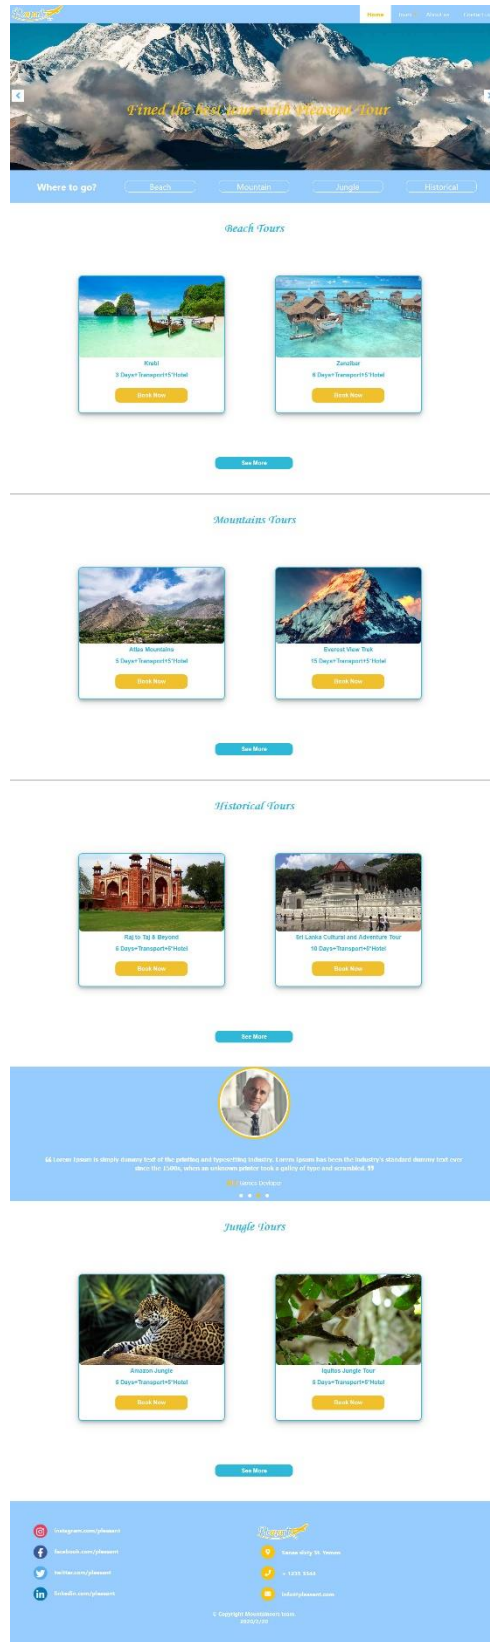

#### Details pages:

*These pages contain each tour specification and detailed itinerary.*
